*El acompañamiento es la práctica de caminar juntos (o virtualmente), a través de la vida diaria, y en momentos difíciles y de incertidumbre. Acompañando a nuestra gente en la lucha por la dignidad, respeto, y seguridad mientras navegan por sistemas profundamente rotos e inhumanos. Hacemos nuestro mejor esfuerzo para que la comunidad esté segura que aquí hay una comunidad aquí para ellos, que no están solas!*

Since 2017, we have been continuously building and strengthening the CCGS Accompaniment Program, which has now reached at least 130 community members. As community use of our Accompaniment Hotline increases, we are building connections to community that in turn allow community members to connect, build their own relationship with Church Council, and collaborate together on many community projects.

**Collective power is our objective.**
